

REMARKS

Claims 1-48 are pending. The specification has been amended to correct a typographical error and to add a reference to the issued related U.S. Patent No. 6,667,297. Amendments to claims 25, 37, 41, and 45 correct typographical and other inadvertent errors. No new matter has been added.

Specification

The Examiner objected to the specification, citing a number of specific typographical errors, and the need to reference a recently issued related patent. Applicants have corrected these errors and the omission by the amendment submitted herewith.

Double Patenting

Claims 1-39 were rejected as being unpatentable over claims 7, 9, and 25-33 of U.S. Patent No. 6,228,875, and claims 40-48 were rejected for being unpatentable over claims 1-3 of the same patent.

Applicants submit herewith a Terminal Disclaimer in compliance with 37 C.F.R. 1.321(c) and 37 C.F.R. 3.73(b) to overcome this rejection.

Applicants submit that the amendments and submission of the Terminal Disclaimer place the claims in condition for allowance.
